

Exitflex® EF361 Chem Spray 600PSI Hose

Is a high pressure agricultural chemical spray hose suitable for the safe transfer of herbicides, weedicides, pesticides and other chemicals used in agricultural and horticultural applications. Designed for the Australian AG market, its specially blended formulation gives it a high kink resistance and superior flexibility even at extremely low temperatures whilst still withstanding the harsh Australian conditions.

# Part Number	 Nom. ID	 Nom. OD +/-0.5mm	 Max. W.P. @ 20°C		 Min. Bend Radius	 Weight	 Length	 Cut Policy
	mm	mm	psi	mPa	mm	kg/m	m	m

00-920-025-***	25.4	34.0	600	4.1	200	0.53	20 / 60R / 100	0

REINFORCEMENT:

High tenacity polyester yarn

INNER TUBE:

Black smooth PVC/Nitrile blend

COVER:

Black smooth PVC/Nitrile blend

TEMPERATURE:

-5°C TO +60°C

SAFETY FACTOR:

4:1

R = Reel

ADVANTAGES:

- Excellent resistance to ageing, atmospheric conditions and ozone
- UV stabilised
- Superior flexibility
- Excellent chemical resistance
