

XD BLUETOOTH HOSE TAP TIMERS

Turn a hose tap into a programmable sprinkler system in minutes. Control the timer at the tap or via Bluetooth® from the B-hyve® app on your mobile device.

B-HYVE XD BLUETOOTH HOSE TAP TIMERS

Easy set up

Fully program or adjust your timer using our easy-to-use app with your iOS or Android device via Bluetooth®

Add Wi-Fi connectivity with available B-hyve Gen 2 Hub

Large easy-to-read digital display

Prevent over-watering with automatic programming

Rain delay options of 1-7 days

Quick installation with swivel connection

Manual option for instant tap use

1 start time per port

Weatherproof

Hose tap watering has never been faster, easier or more convenient with the ability to control the timer using an Apple or Android device. The B-hyve Hose Tap Timer uses a Bluetooth chip that has great range - up to 45.7m line of sight. Schedule, manually operate and monitor water flow without climbing through shrubs to access the timer. Set watering times down to seconds, which is great for gardening, hydroponics, filling pet dishes or even bird baths.

Easily connect to the timer with the push of a button via the home screen on the B-hyve app. If Bluetooth doesn't provide the flexibility required, the addition of the B-hyve Wi-Fi Hub (available separately) will connect your device from anywhere in the world.

Wi-Fi Gen 2 Hub
Sold Separately
